Keeping as much work in-house as possible instead of contracting it out.			
Will you oppose the sale of public land and the corporatization (decision-making in the hands of a board independent of city council) out of municipal services when those services can be effectively delivered by municipal employees? Yes/No			
Yes			
If elected, what specific action will you take to fulfill this commitment?			
I have already voted to oppose an MSC for our water services. However, for affordable housing because we haven't been able to build enough to keep up with the demand, I would like to get information on the option to build a mid-rise building of supportive housing units with office built in the lobby that can give counselling under a MSC model for affordable housing.			
What will you do to make housing more affordable? Affordable to whom?			
We need to direct city staff to put in policies in the new 2027 Official Plan that will target developers to build apartments for the low to mid-range market. It seems that all of the new apartments in Kingston in recent years have been aimed at the high end luxury market. We need to encourage builders to build more bungalow semi-detached and bungalow townhomes so that empty-nesters can put their large family homes on the market and move into the bungalows, freeing up more family homes to be bought by young families. Not all empty-nesters are ready to move into a condo or retirement home. They need a bungalow to ride out their retirement as long as possible.			
Talk about your approach to homelessness & investing in social housing.			
Again, we need to build or buy some mid-rise 4-5 story buildings to use as supportive housing units with the lobby being offices to provide services like counselling to them.			
Will you stand up for workers' rights and safe, fair workplaces? Yes/No			
Yes			
If elected, what specific action will you take to fulfill this commitment?			
If staff come to me with an unfair or unsafe problem, I will work on the issue

Since Kingston has such a large seniors population, council should send resolutions to the federal government to advocate keeping door-to-door mail delivery.
