Will you promote municipal policies and investments that create and maintain good stable and fairly paid jobs in our community? Yes/No			
Yes			
If elected, what specific action will you take to fulfill this commitment?			
The city is facing a known cash crunch. I think the city should proceed with a Municipal Services Corporation for water and wastewater, then use this new borrowing capacity to invest in housing development locally. We need to work with local partners like Queen's and St Lawrence College to ensure we're efficiently filling positions in our local trades labour market to accomplish this. Reducing the cost of housing locally, as well as reducing the cost of construction by increasing the number of skilled trades, will have dramatic impacts on local growth and development.			
Will you oppose the sale of public land and the corporatization (decision-making in the hands of a board independent of city council) out of municipal services when those services can be effectively delivered by municipal employees? Yes/No
