

Name	City/Municipality	Running For:	District:
Kelly Willis	North Frontenac	Mayor	n/a
Will you promote municipal policies and investments that create and maintain good stable and fairly paid jobs in our community? Yes/No			
Yes			
If elected, what specific action will you take to fulfill this commitment?			
My main initiative is safe drinking water. It is my belief that Communal Water Systems will provide the technology that can be funded and support by all levels of Government. Specialized training can occur and we can create a workforce that will provide Municipal Water and Waste Monitored systems throughout Canada. We can begin here in North Frontenac. It is the Plan.			
Will you oppose the sale of public land and the corporatization (decision-making in the hands of a board independent of city council) out of municipal services when those services can be effectively delivered by municipal employees? Yes/No			
Yes			
If elected, what specific action will you take to fulfill this commitment?			
I know the importance of keeping a government employee training program active. If the Municipal employees are active in the community the taxes stay in the community and keep our economy progressing. Businesses can offer complimentary services for our economy, an entrepreneurial venture helps to improve the economy and heightens income levels to improve standards of living and competition.			
What will you do to make housing more affordable? Affordable to whom?			
North Frontenac(NFt) needs housing to be affordable, but NFt needs houses. We can push to build, but if residences can not stay because of the economics then we should not build. My initiative is for Safe water, improved telecommunications and economic development through providing additional municipal recreational services. Each Candidate is elected into office for a four year term. We need safe living standards and to harmonize with the environment. A first initiative could be independent living or townhouse development, which can move to a subdivision of homes and services. It is a plan.			
Talk about your approach to homelessness & investing in social housing.			
These services are controlled at the County level and Kingston provides the best services. The most important way to avoid homelessness is to identify it approaching. Homelessness occurs for different reasons and social aids need to be in place. Currently, there is a disconnect between knowing the individual who is in need and the providing the service. NFt is missing the communication necessary to provide direction to connect the person and the service. Rural Frontenac Community Services is the place to start and they can direct individuals in how to find the services necessary in finding a successful path. I feel that social housing is such a sparse area needs to be shared between Municipalities, since the population requiring the services may be to small for one Municipality to focus on. Lennox and Addington are creating social housing units and this can be used as a model for NFt's future consideration.			

Will you stand up for workers' rights and safe, fair workplaces? Yes/No		
Yes		
If elected, what specific action will you take to fulfill this commitment?		
It is a standard established through Leadership, Management, and Authority. It is important to be open, honest, fair and attentive to the needs of staff. This is accomplished by being approachable and listening to concerns. Management requires direction for staff in accomplishing common goals. Safety is always the first concern. Working together to ensure we establish responsibilities and expectations in performance that are reflective and measurable.		
Will you support using public dollars in ways that strengthen public services, support good local jobs and provide the greatest benefit to the local community? Yes/No		
Yes		
How will you make sure public dollars support strong services, good jobs and our local community?		
No answer
